1. Colonel Baird spoke to me about restrictions recently placed on attendance by CIA personnel (as well as personnel from other agencies) at lectures in the War College. Mr. Dulles and I have determined that since these restrictions were not discriminatory, CIA would not complain to the War College. Colonel Baird undertook, if there were a demand, to attempt to arrange special lectures by outstanding individuals coming here for talks at the War College and, after discussing this at the IADs' meeting, I called Colonel Baird and requested him to do so.

2. Arranged for attendance by O/NE, O/CI, et al., at a debriefing of Secretary Pace which, as presently arranged, will take place Wednesday next.

25X6A 3. Spoke by phone with [redacted] regarding a recent cable on [redacted] which had been referred to Gen. Canine. I merely inquired whether he was taking the position that this type of a relationship was an FI function, rather than an AFSA function, although it should be coordinated with AFSA. Mr. 25X1A9a [redacted] indicated that he was taking this position and undertook to have me briefed on the situation in the near future.

4. [redacted] spoke to me on the urgency of his obtaining a man to head up his Intelligence section. He has a GS-15 slot. I later raised this point with the IADs and there is a possibility that Sherman Kent may 25X1A9a have a candidate, if he is able to get [redacted]

5. Attended NSC Senior Staff meeting on NSC 135 and NSC 135/1.

25X1A9a 6. 25X1A9a [redacted] of Commo spoke to me about the availability of [redacted] presently Secretary of USCIB, who is a GS-13. Later 25X1A9a [redacted] came in to see me and I indicated that there would be a position open to him in the O/CI Policy and Liaison Staff. [redacted] only concern was as to 25X1A9a the training of a successor for his present position. I shall have to speak to Mr. Sheldon on this as soon as he returns.

25X1A9a 7. I spoke by phone with Gen. McClelland and suggested it would be helpful to have a Commo liaison officer in O/CI and he agreed. Mr. Sheldon had designated [redacted] of O/CI for this position and I so informed Gen. McClelland.

8. Spoke with [redacted] and suggested the advisability that O/CI, as a corollary of its Special Intelligence responsibility, keep itself
